NUCLEAR INFORMATION AND RECORDS MANAGEMENT ASSOCIATION (NIRMA)

Leading the world in the advancement of Information Management and Configuration Management in the nuclear industry.

The time is here to support the 2017-2018 initiatives of NIRMA. For the past 40 years, many organizations have benefited from the guidance and standards that NIRMA provides including Technical Guidelines on information management.

Now is your turn to give back. Your company sponsorship is needed to offset funding toward critical initiatives that NIRMA is targeting:

- Website improvements
- Advertising to expand NIRMA's core audience and to grow membership
- Deeper engagement with related industry groups (i.e. AIIM, ARMA, EPRI) to further enhance the educational value
- Sponsorships can also be designated for Conference and other NIRMA business expenses
- Non-monetary sponsorships are also requested such as printing NIRMA materials, postage mail-outs, website support, annual Conference support (staffing registration desk), etc.

The bar is set high. NIRMA is a standards developing organization under American National Standards Institute (ANSI) and has published the ANSI/NIRMA CM 1.0, "Guidelines for Configuration Management of Nuclear Facilities". NIRMA also provides guidance for records capture and retention in the context of ASME/NQA-1, 2008.

Industry leading practices converge at the Annual NIRMA Conference each year, paving the way for the next generation to benefit from the lessons of the past, present and what's to come for the future. The 2017 Annual NIRMA Conference will be held at the JW Marriott Resort & Spa at Summerlin, Las Vegas, Nevada. August 6 – 9, 2017.

Send an email to nirma@nirma.org with your contact information, company name, and desired sponsorship level. Payment options and receipt will be provided.

We thank you for your support!
